Mrigendra Patel

Full Stack Web Developer

PROFESSIONAL SUMMARY

Diligent Full Stack Web Developer proficient in the MERN stack, adept at using Generative AI and swiftly mastering new tech stacks. Excels in crafting efficient server-side APIs, seamless frontend-backend integration, and optimizing database models. Strong collaboration, problem-solving skills, and commitment to excellence in web development.

PROJECTS

1. Whiteboard Application | |

JavaScript | HTML5 | CSS3 | Responsive Web Design | Git

- Developed a real-time collaborative Whiteboard application using JavaScript, HTML5, and CSS3.
- Implemented authentication and authorization to enable user-specific whiteboard sessions.
- Integrated a variety of drawing tools for enhanced visualization and idea management.
- Utilized responsive design techniques to ensure seamless use across different devices.
- Led a team of 3, contributing significantly to the project's architecture and development.

2. Apollo.io | |

HTML5 | Git | Responsive Web Design | CSS3 | Bootstrap

- Collaborated with a team to implement responsive web design using HTML5, CSS3, and Bootstrap for the Apollo.io project.
- Applied best practices in web design to create a user-friendly interface for lead generation features.
- Supported the integration of real-time data updates and verification to maintain current and accurate information.
- Utilized Git for version control to streamline collaboration within the team, ensuring efficient development workflows.
